

ETCHED ARCHITECTURAL PLAQUES

YOUR MOST INTRICATE ARTWORK DESERVES THE ULTIMATE IN DETAIL

Our proprietary etching process captures the most complex artwork on stainless steel, bronze, or brass plaques. These elegant plaques can include combinations of detailed line art, intricate diagrams, high-contrast photography, and the choice of raised or recessed graphics - giving you the artistic freedom to bring your vision to life.

DEFINITION

Etched Architectural Plaques are made by chemically etching the surface of a bronze, brass, or stainless steel plate to create shallow recessed areas that are paint-filled, resulting in a finely detailed design on a single-level surface.

FOR INTERIOR AND EXTERIOR APPLICATIONS.**

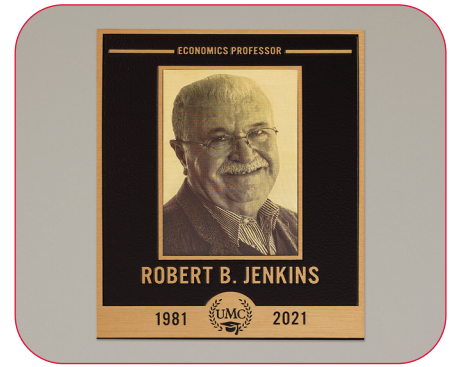

CAPTURE EVERY DETAIL

Our proprietary chemical etching process captures even the most intricate details and strokes of your artwork. A sketch or drawing can be etched with exceptional results by reproducing a line drawing with submillimeter accuracy.

ULTRA THIN & A RANGE OF SIZES

Our Etched Architectural Plaques are available from 1/4" to as thin as .020" – making it lightweight and easy to install. From petite accents to monumental statements, sizes can range from 2" x 2" to 36" x 72".

PHOTOS ETCHED IN METAL

Preserve photography with a unique, vintage appeal. Etched photos are created as halftone images, which resemble newspaper photographs.
